DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Species I on September 26, 2003 is acknowledged. The traversal is on the ground(s) that "it could not possibly be a serious burden to examine claims directed to the different embodiments, particularly since the examiner has already considered and performed a prior art search for claims directed to the different embodiments". This is not found persuasive because the Election of Species requirement issued on August 26, 2003 is based on the fact that the claimed invention has patentably distinct species, not the criteria under MPEP 803.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Furthermore, the fact that search for two inventions overlaps does not necessarily eliminate a serious burden in examining two different inventions.

The requirement is still deemed proper and is therefore made FINAL.

2. **Claims 8-28** are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected Species, there being no allowable generic or

linking claim. Applicant timely traversed the restriction (election) requirement of August 26, 2003.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: **Claims 8-28** are cancelled.

Allowable Subject Matter

4. **Claims 1-7 are allowed.**

5. The following is an examiner's statement of reasons for allowance:

Claims 1-7 are allowable because the prior art fails to disclose or make obvious, either singly or in combination, a display image quality measuring system comprising, in addition to the other recited features of the claim, "a controller which determines reliability of the said first data and said second data and an AF driver which moves a focusing lens of said sighting telescope optical system to bring said sighting object into focus in accordance with one of said first data and said second data which has been determined to be reliable by said controller".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
